

State Air Resources Board Budget No. 3900

Report No.	Legislative Report Title—Brief Summary of Reporting Requirements	Admin. Justification for Proposed Elimination or Modification	Committee Staff Comments
1	Motor Vehicle Service Information - Report on the extent to which the ARB's service information requirements are effective in reducing vehicle emissions	Remove from Legislative Counsel list since the reporting requirement is obsolete because the Proposition 40 (2002) bond funds for the Carl Moyer program were fully expended by June 30, 2006. The Carl Moyer Program only received Proposition 40 funds in fiscal years 2002-03 and 2003-04.	The Motor Vehicle Service Information report was required annually through the year 2009. This reporting requirement has expired.
2	Vehicle Retirement Program - Evaluation of overall performance of emission reduction programs involving retirement or disposal of light-duty vehicles	Remove from Legislative Counsel list since this one-time report has been completed. The report was sent to the Legislature, and posted on the Hydrogen Highway website at http://www.hydrogenhighway.ca.gov/facts/facts.htm .	The Vehicle Retirement Program report is required every three years beginning in 1999 unless the program does not receive adequate funding. The California Air Resources Board recommends removing this report requirement because funding for the 1994 State Implementation Plan vehicle retirement measure was never appropriated.
3	Goods Movement Emission Reduction Program - Report summarizing activities related to the administration of the Goods Movement Emission Reduction Program, including, at a minimum, a description of projects funded, the amount of funds allocated for each project, the location of each project, the status of each project, and a quantitative description of the emissions reductions achieved through the project or program	Remove from Legislative Counsel list since this one-time report was completed and posted on ARB's website at http://www.arb.ca.gov/msprog/avrp/legrpt2009.pdf	The Goods Movement Emission Reduction Program report is required to be submitted to the Legislature on an annual basis by Jan 10. The California Air Resource Board recommends the elimination of this report because this report is already required to be submitted to the Department of Finance by Health and Safety Code 39625.02(f) and because this report is regularly posted on its Goods Movement Emission Reduction Program website (http://www.arb.ca.gov/bonds/gmbond/gmbond.htm). The Legislature may choose to continue to require that this report be submitted to the Legislature on a yearly basis in addition to being submitted to the Department of Finance
