REBUILDING
CA

Features and Functionality

The **Rebuilding CA** website offers a range of features to enhance the user experience and provide valuable project-related information, which includes:

- Project maps
- State and federal program information
- Data dashboards
- Efficiencies report
- Project spotlights and gallery
- News releases

Our Priorities

We prioritize our commitment to transparency, accountability, and the responsible utilization of public funds by:

- Program transparency and accountability
- Commitment to accurate data reporting
- Foster public trust and confidence
- Engage taxpayers using straightforward explanations

Project Information

Journey to Date

An ongoing journey of innovation and continuous improvement.

Significant effort and resources to enhance the user experience and optimize access to project information.

Future Plans

- Map modernization
- Robust project gallery
- Increased multimedia content

Lesson Learned

Communication

"We are investing your tax dollars efficiently and effectively."

Plain Language

Simplified storytelling for visitors of all knowledge levels.

Data Refinement

Refining data for consistent external reporting requires **significant time, effort, and IT and program support.**

Data Synchronization

Translating program-specific information from multiple programs to tell one story requires significant effort.

Program Complexity

Linking together data gathering, transparency, and communication increase with the number of programs and complexity.

User Interaction and Technology

The interactive project map is the most popular destination on Rebuilding CA. Nearly 20% of daily visits.

Accountability and Transparency
